Roommate Agreement | Our Room, Our Rules

🎉 College life officially starts now!

Over the next year, we'll be sharing this room as we study, relax, rush to finish assignments, stay up late, and catch up on sleep.

To keep questions like "What temperature should the AC be set to?", "Should the lights be turned off?", or "Whose trash is this?" from becoming the spark that starts a roommate war, we've decided to talk things through first and create our own Roommate Agreement together.

Dormitory: _____ Room No.: _____ Date: _____ / _____ / _____

1. Sleep Comes First!

Our daily schedule agreement
(For example: What time should lights be off? Is voice chat while gaming okay? How should we handle late-night streaming or videos?)

We know that roommates are usually assigned rather than chosen, but we'll be living together for the next year.

When problems arise, we'll communicate.When challenges appear, we'll help each other.When we disagree, we'll talk before getting upset.

We hope that when we look back a year from now, this room will be remembered as one of the best parts of our college experience.
